(Maharashtra state board)
G.V.M. Vidyalaya malkapur
03/2018 | Malkapur

{} SKILLS

- Html, Css
- Javascript
- Basic Python, Sql
- Basic React Js

⚛ SOFTWARE TOOLS

- Git Github
- Vscode , Netlify
- Operating system:
- Window, linux

📁 PROJECTS

Snake Ladder Game (using html css javascript) ⧉
created a responsive and interactive user interface. It plays audio once at
the start ofthe game and when a player wins. After a player wins,the game
restarts automatically.

Quiz app (using html css and javascript) ⧉
- Developed a quiz app using HTML, CSS, and JavaScript, featuring quizzes
- on programming languages with instant scoring and feedback. Enhanced
- user engagement and improved my front-end development skills

To do app (using html css javascript) ⧉
- Crafted a Todo app with HTML, CSS, and JavaScript, integrating
- countdown timers using Date objects upon expiration, triggers an alarm
- with a designated song. Efficiently manage tasks with added auditory
- reminders.

MyBookShelf using html css and javascript. ⧉
- Developed a responsive web app for efficient book management. Features include robust search, dynamic filtering, and intuitive favorites management, showcasing skills in responsive design and front-end development.

🏠 EXPERIENCE

CodeSoft internship   06/2024 – 07/2024
06/2024 – 07/2024
Completing task-oriented assignments within deadlines at CodeSoft. Gaining experience in project management and task execution in a professional software development environment.

Student Mentor
Guided and supported new students at Navgurukul by providing mentorship and assistance, helping them navigate their educational journey and ensuring a positive and supportive learning environment.

📜 CERTIFICATES

JavaScript algorithms and data structures. ⧉
